Name of DSIC: <u>Mr. Sheikh Afshan Farooq</u>	Date / Day: <u>3rd June, 25 - D2</u>
Day / Activity No.: <u>2 / 2</u>	Time of activity (start & end): <u>9:30 - 3:00</u>
Location of Field Visit (Village): <u>Panta, Haryana</u>	UGC Module No & Name: <u>Module 1</u>
Title of the activity: <u>Soul of the Villagers: Capturing the Essence of India</u>	Theme of activity: <u>Rural - Livelihood and Sustainable development (Roads)</u>
Objective: <u>Study of Rural Infrastructure (roads) and its impact</u>	
<p>During my visit to the village, I examined the local infrastructure. The primary road connecting the village to a neighbouring settlement was in deplorable condition. These unpaved roads looked unmaintained, resulting in severe deterioration. Numerous potholes made communication difficult, while the absence of street light posed significant risks for night travel. The narrow width of roads further complicated the matter.</p>	
Additional Notes: <u>Recommendation for immediate action, on infrastructure like → Roads, street lamps etc.</u>

Name of DSIC: <u>Mr. Sheikh Afham Farooq</u>	Date / Day: <u>9:30 - 12:00, 4th</u>
Day / Activity No.: <u>3</u>	Time of activity (start & end): <u>Wednesday 4th June, 25</u>
Location of Field Visit (Village): <u>Parita, Haryana</u>	UGC Module No & Name: <u>1 (Appreciation of Rural Soc)</u>
Title of the activity: <u>Reflection on Rural infrastructure</u>	Theme of activity: <u>Water and Environment sanitation</u>
Objective: <u>Examination of Irrigation System</u>	
<p>ON my 3rd visit to village, I planned to see how they maintain adequate irrigation system and they give enough water to the entire farm. I also wanted to know how these system support agriculture activity. As far as I could tell, every farm had at one tube well, which seemed as a dependable supply of water for irrigation.</p> <p>Challenges: Some farmers expressed concerns about maintenance cost of tube well and need for regular supply.</p>	
Additional Notes: <u>There is a heavy reliance on electricity, because of that the water consumption in area, electricity fluctuates a lot.</u>

Program Name: <u>BE CSE</u>	Semester & Section: <u>3rd - 615</u>
Name of DSIC: <u>Sheikh Aftab farooq</u>	Date / Day: <u>5 June 25 - Thursday</u>
Day / Activity No.: <u>4</u>	Time of activity (start & end): <u>10:00 to 1:30 PM</u>
Location of Field Visit (Village): <u>Pasta, Haryana</u>	UGC Module No & Name: <u>1</u> <u>Appreciation of Rural Society</u>
Title of the activity: <u>Cultural Heritage and Mapping</u>	Theme of activity: <u>Cultural Heritage Preservation</u>
Objective: Conducting a Village heritage walk to understand rural culture. Today, I visited the village to explore the culture and social fabric of rural India through a guided village heritage walk. The focus was to understand how traditional spaces, community structure, and heritage sites contribute to identity, unity and sustainability of village life. The activity also intended to observe the preservation state of these sites and have ideas of their promotion through tourism.	
Additional Notes: This walk was an eye opening experience that emphasized the value of rural heritage in shaping ideas.
